

NATURE Plus

More than ever, companies are focused on the sustainability of their paper purchases. However, sometimes there is the perception that you have to sacrifice quality or the look and feel of a printed piece in order to use a recycled paper option. Nature Plus® offers the best of both worlds – a high-bright paper with exceptional print characteristics and up to 30% recycled content. There is no longer a need to choose between high-end quality and sustainability.

Nature Plus 92 bright, #2 coated free-sheet web papers are available in a range of 10% to 30% post consumer waste (PCW) recycled content with the equivalent brightness, comparable ink gloss and print quality characteristics of similar virgin fiber products. All Nature Plus papers are FSC-certified and, by buying products with the FSC label, you are supporting the growth of responsible forest management worldwide.

Reductions in fiber, energy and water usage as well as a reduction in the output of greenhouse gas emission and solid waste are just some of the benefits of using a recycled paper grade. For more details on how your paper selection impacts the environment, visit our Nature product page at www.westlinnpaper.com.

NATURE PLUS PRODUCT SUMMARY

- #2 coated free-sheet web
- 92 brightness
- Available in text, cover and caliper grades
- 10% to 30% PCW recycled content
- FSC-certified
- Elemental chlorine free

NATURE Plus

Nature Plus® offers you the benefits of a recycled content with the same high-quality specifications found in our Capistrano brand #2 sheet – allowing you to choose a sustainable paper option without sacrificing quality. All recycled Nature grades are FSC-certified which indicates that the pulp is acquired from forests that are well-managed in accordance with the FSC’s principles and criteria.

Features/Benefits:

- **FSC-certified** - third party certification confirming that the fiber used for this paper comes from well-managed forests
- **Elemental chlorine free** - Reduces the amount of dioxins and related by-products
- **Quality and reliability that equals virgin products** - without sacrificing brightness or printability
